

Find The Politicians

Below are pictures of White House Officials mixed with pictures of characters from The West Wing. Identify as many names and positions as you can. Photos are sorted on the next page.

After you identify all the actors and White House staff, discuss why some people are more identifiable than others. Also discuss whether or not White House staff positions are scripted and if so, how that is different than actors who play White House staff.

The West Wing Characters

Martin Sheen
President of the United States
