Subject: "Tomas" the Protester

I received information that "Tomas" the guy that shows up at our protests waving the American flag and screams carries a large knife on his person and has been seen with it at the protests. I will try to get more information on this person. This information comes from the anti-war side so put appropriate weight on it...He has also reportedly followed some protesters to their work site etc. Just FYI to pass on to your officers for safety reasons.
